

# Are you our next Engineering Intern?

## What will you be doing?

- Providing support for investment, Industry 4.0, and other projects in manufacturing, including planning, design, specifications, control, and implementation.
- Participating in technical maintenance, equipment improvements, and modernization, as well as creating manuals and procedures.
- Coordinating with contractors and engaging in other factory engineering activities.
- Monitoring the production and packaging quality of cigarettes, tobacco processing and packaging, and preparing daily reports."

## Who are we looking for?

- You are a final-year student in engineering (vocational or academic) or have recently graduated from a Technical or Technological Faculty (preference: electrical engineering, automation, mechatronics, and industrial engineering).
- Proficient in English.
- Experienced with MS Office and AutoCAD.
